Notice to Affected CoreComm Residential Customers

February 23, 2005

Dear Customer:

ATX Licensing, Inc. ("ATX") and CoreComm¹ are pleased to announce that ATX will be acquiring the telecommunications customers of its sister company, CoreComm, in your state on or after April 24, 2005. The actual effective date of the transfer will be on a customer-by-customer basis and will depend on when we receive the appropriate state and federal regulatory approvals. ATX will automatically become your long distance provider (and also your local provider, if you were receiving local telephone services from CoreComm) for your services at that time.

We want to assure you that the transaction **will not affect the price of the services you currently receive** and that you will continue to receive services with the same rates and generally the same features, terms and conditions as the service you enjoy today.

The transaction has been structured such that customers should not be charged any carrier-change charges levied by your local telephone company. If, however, such a charge does appear on the bill from your local telephone company as a result of this transfer of service to ATX, please call ATX's customer service department toll-free at the number located on your first ATX bill and a representative will reimburse you or credit your account accordingly.

An ATX client care representative will be contacting you directly after ATX automatically transfers your service to ATX, to confirm your service and answer any questions you may have. However, if you have any service orders or complaints up until the time the transfer takes place you may call the customer service department at 1-877-267-3266. After the transfer of service you may contact ATX at the toll free number included on your bill. In the event that ATX would change your rates, terms and conditions in the future we will be communicate any changes to you

via a bill insert. You may, of course, choose another carrier for your telephone service, subject to any termination restrictions in your contract.

Please note that any "freeze" you have placed on your existing telephone lines to prevent unauthorized transfer to another long distance carrier will be over-ridden for purposes of this transaction, and will need to be reinstated by you after the transfer is complete. Your ATX client care representative can provide you with further details.

Our sister company, ATX, will continue to provide you with the high quality of service that you have previously received from CoreComm for many years to come. Additional information about the total packages of service offered is available at <http://www.atx.com>.

Sincerely,
